

THOUSANDS WITHOUT WORK.

Down of Big Michigan Company Almost Causes Panic.

St. Ste. Marie, Mich., Sept. 21.—The down of the Consolidated Lake Superior Company, throwing 2,000 men out of employment, has caused a panic in the steel town, which is in a worse condition than ever in its history.

Many people are preparing to leave that at once, while merchants are closing their stores and preparing in every way to get through the winter in the best manner with the least expense.

The action of the police department in closing all the conductors and mortars of the street railway lines, has served to stir up the anxiety of the people.

An special train left last night up the main Central railroad to bring in the unemployed men employed in the woods mines. They are expected tomorrow, and a man of them will have a penny which to buy food or lodging. The company will pay the men in checks, which will be good for nothing until money has been raised and deposited. The men of the men turned loose in the city, and with no money, the situation is dangerous.

Guard has been placed around the office of the paymaster of the company, the people are making desperate efforts to arrange means for feeding and clothing the men until they can be taken out of town.

The company has fitted up a car in such a manner that the men may be housed there after a fashion, while the company and the town are making arrangements to feed the men.

ROOSEVELT CAMPAIGN BUTTON.

Mr. T. Washington Site at Luncheon With Him on the Design.

Chicago, Sept. 21.—Presidential campaign buttons have appeared, the first in approaching presidential contest. They are of unique design representing President Roosevelt and Robert T. Washington, enjoying a luncheon together. The word "Equality" in bold letters is on the face of the button, in its most characteristic. Negro men have been the first to wear the button and are to be seen with the button on their coat lapels. To Charles H. Thomas, 617 West Chicago avenue, is credited the origin of the button, which is in great demand, particularly among negroes.

His Life to a Neighbor's Kindness.

Dr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was most hopelessly afflicted with rheumatism, was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his condition, brought him a bottle of Chamberlain's Colic, Cholera and Rheumatism Remedy, which cured him in less than twenty-four hours. O BRAND PENNELL A SUICIDE.

Insurance Companies Seek to Connect Him With Burdick Murder.

Buffalo, N. Y., Sept. 21.—At the conclusion of the supreme court four cases will be moved for trial. In each of which attempts are to be made to connect insurance policies issued to the late Arthur R. Pennell, who sensational death in local quarry and connection with the Burdick murder mystery are still fresh in the minds of the people. The total amount paid for is \$250,000.

As been known for some time that the Postmaster General Wilson B. Wells has been making a painstaking investigation into Pennell's affairs, with particular reference to his relations with the Burdick murder.

As a result of these investigations, Mr. Wells' law firm intends to show that Pennell committed suicide. To do this the firm intends to establish a motive for suicide, and it is hinted that the department will be of a nature to connect Pennell with the murder case in a way that was not intimated in all the investigations made by the authorities.

Three other law firms also have been working along similar lines. These other firms represent different insurance companies. They will attempt to show that Pennell committed suicide merely for the purpose of enabling relatives, whose money had been stolen to reimburse themselves in the insurance that would be paid in the event of his death. If compelled to do so, however, it is said, these other firms will be in a position to reveal things tending to explain why Pennell, bent on self-destruction took his wife with him on a fatal plunge over the quarry brink.

The Proverbial "Peck"

It is said that everybody "eats a peck of dirt."

No one is anxious to get more than their share, yet a few people still buy soda crackers in bags.

Crackers sold from a can or barrel are likely to collect dust and other things in the cleanest of groceries. The store must be swept; boxes and barrels moved and the cracker box uncovered now and then for a thoughtless buyer.

If you don't want to eat a peck of dirt buy **Uneeda Biscuit** in the airtight, dust-proof, moisture proof In-er-seal Package with red and white seal. Baked and packed in perfect cleanliness they reach you in the same condition.

Whether bought at the general store in the country or at the great city grocery, they are equally fresh, and good, and wholesome.

MULHALLS AGAIN.

Advertise Oklahoma in Texas With "Wild West" Feats.

The Denton Herald speaking of the attractions there says:

After the pacing race there was a special half-mile running race between Miss Lucile Mulhall, a cowboy and a jockey. Miss Mulhall won. The time posted was 55 seconds. She gave her pony a good ride, got him off well and finished equal to a professional jockey.

The trick roping contest on the race track in front of the grand stand was a fine exhibition. The ropers were Miss Lucile Mulhall, Jim Hopkins and Will Garrett. The rough riding by Miss Lucile Mulhall and a cowboy, was also an excellent feature of the program, as was Geo. Elzer's fancy trick riding exhibition.

Miss Lucile's performance with her trick pony was well received by the spectators. The horse Miss Mulhall rides is said to be one of the best trained animals in America. He displayed a great deal of intelligence and performed feats that would seem impossible to teach a horse.

The potato race between Miss Mulhall and cowboys was a very amusing feature.

CASE IS APPEALED.

Grows Out of Leasing Certain School Lands.

The case of John P. Whittaker vs. John A. Hughes, from Washita county, has been appealed to the Oklahoma supreme court. December 14, 1897, Whittaker secured a lease for a period of three years on a tract of Washita county land, paying the sum of \$115 rental. The leasing board was then composed of C. M. Barnes, Wm. Jenkins and N. Hopkins. On November 15, following, Whittaker re-leased to B. F. and Albert Cooper, and in November, 1899, these persons transferred their interest to John A. Hughes. In December, 1900, Hughes desired to re-lease the land, and Whittaker came forward claiming that he had never relinquished his rights for the land, and therefore entitled to the tract. Hughes went into court and secured a permanent injunction restraining Whittaker from interfering with him in possession of the land. In the lower court, Barnes, Jenkins and Hopkins were made parties to the action.

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much so as it is to love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.

GIVE UP WEED OR SCHOOL.

Kenosha Principal Says No Smokers Will Be Admitted.

Kenosha, Wis., Sept. 21.—Kenosha school boys will no longer use cigarettes. The city principal of schools has issued an iron-clad edict that all users of cigarettes must be expelled from the schools and not allowed to return until they could give evidence of reformation. The principal is backed by the board of education and it is apparent that the smokers will have to give up the weed or the school.

In defending his action Principal Hammill said he had discovered that almost half the school boys in the city were users of tobacco and that the state law against the sale of cigarettes was no bar to the boys securing paper pipes. The practice is growing at an alarming rate and the influence of the smokers on the other boys in the school is decidedly bad. Requests have been treated with scorn and for this reason the principal took the decisive step.

Several of the boys have announced that they will strike if the rule is enforced, but the principal has no fear of such action and all must quit smoking or quit school.

Mr. Chamberlain's Resignation.

The retirement of Mr. Chamberlain from the Cabinet on the ground that he cannot accept Premier Balfour's programme of retaliatory duties against manufactured imports will hasten the break-up of the present British government, which a "v" is presaged by the resignations of Mr. T. S. Chamberlain, the Exchequer, and Lord George Hamilton, Secretary for India.

Mr. Chamberlain's position from the first has been that, in order to have anything to offer the colonies as an inducement to them to give to the mother country's exports lower tariff rates than those of other nations, there must be duties imposed on the enormous food importations of the British people. In return for the stimulus to be thus given to the grain and meat production of Canada and Australia, Mr. Chamberlain's idea was that these colonies would provide a larger market for British manufactures. He adheres to this position, though he is reported as admitting that on a first appeal to the people his programme would be rejected. A little later, he believes, it would be approved.
